

Volumetric selfpriming monoblock electric pump 230V, with open impeller and palettes. It's equipped with two-pole induction self-ventilated motor with rate protection IP55, isolation class type F, internal protection. The check valve inside the suction outlet avoids the syphon effect when stopping and assures the automatic re-start each time. The pump selfprimes even if partially filled and if the suction hose is completely empty.

### High delivery electric pump MEC-550 for diesel fueltransfer 550 l/min Equipped with:

- Power cable 2 m lenght, Schuko plug
- Selfpriming monoblock electric pump
- Cast iron body
- By-pass valve
- AC Engine
- Stainless steel filter 100 micron
- Motor protection rating IP55
- Total suction lift up to 7 m
